SEATTLE ESPRESSO

Quality Central & Latin American Arabica coffees are blended to produce a silky cup. The dark brew is pleasantly sweet and rich with a satisfyingly smooth finish.

DECAFFEINATED ESPRESSO

Water from the glaciers of the Pico de Oribzaba mountain in Mexico is used to bathe these selected premium beans and coax out the caffeine from within them, resulting in coffee of a remarkable quality. By gently and naturally decaffeinating using this 'Mountain Water' process these beans are then fuller roasted for a dark and astonishingly flavoursome brew.

It takes four very different, but notably shade grown Arabicas to create this distinctive espresso blend. Great depth, good body and superb cup quality.

PREMIUM LOOSE TEA WHOLESALE LIST

This range of loose leaf tea brings you a quality which simply cannot be found in teabags, for as there isn't the water to circulate around that cramped little bag you need fast brewing leaves, known as fannings, made by crushing the tea which dulls the flavour of the delicate oils.

For the perfect loose tea brew, use freshly drawn boiling water and give the leaves time to infuse: you will see them unfurl and 'blossom' as they release their flavoursome nectar. Taste the difference – no teabag sludge and full technicolor drinking at remarkably little cost.
