## PREMIUM LOOSE TEA WHOLESALE LIST

This range of loose leaf tea brings you a quality which simply cannot be found in teabags, for as there isn't the water to circulate around that cramped little bag you need fast brewing leaves, known as fannings, made by crushing the tea which dulls the flavour of the delicate oils.

For the perfect loose tea brew, use freshly drawn boiling water and give the leaves time to infuse: you will see them unfurl and 'blossom' as they release their flavoursome nectar. Taste the difference – no teabag sludge and full technicolor drinking at remarkably little cost.
